Port Authority Traffic Insights Dashboard

Group 5

Goal 1: Top 5 Factors Affecting Bridge & Terminal Usage

Regression results show that EZPass usage, Cash payments, and Violations are the strongest predictors of bridge and terminal traffic. This means that payment behavior and driver compliance have a larger influence on traffic volume than facility characteristics.

Goal 2: Toll Violations by Time and Facility

Total Traffic

122.4M

Total Violations

4.3M

Violation Rate

3.51%

Year

2024

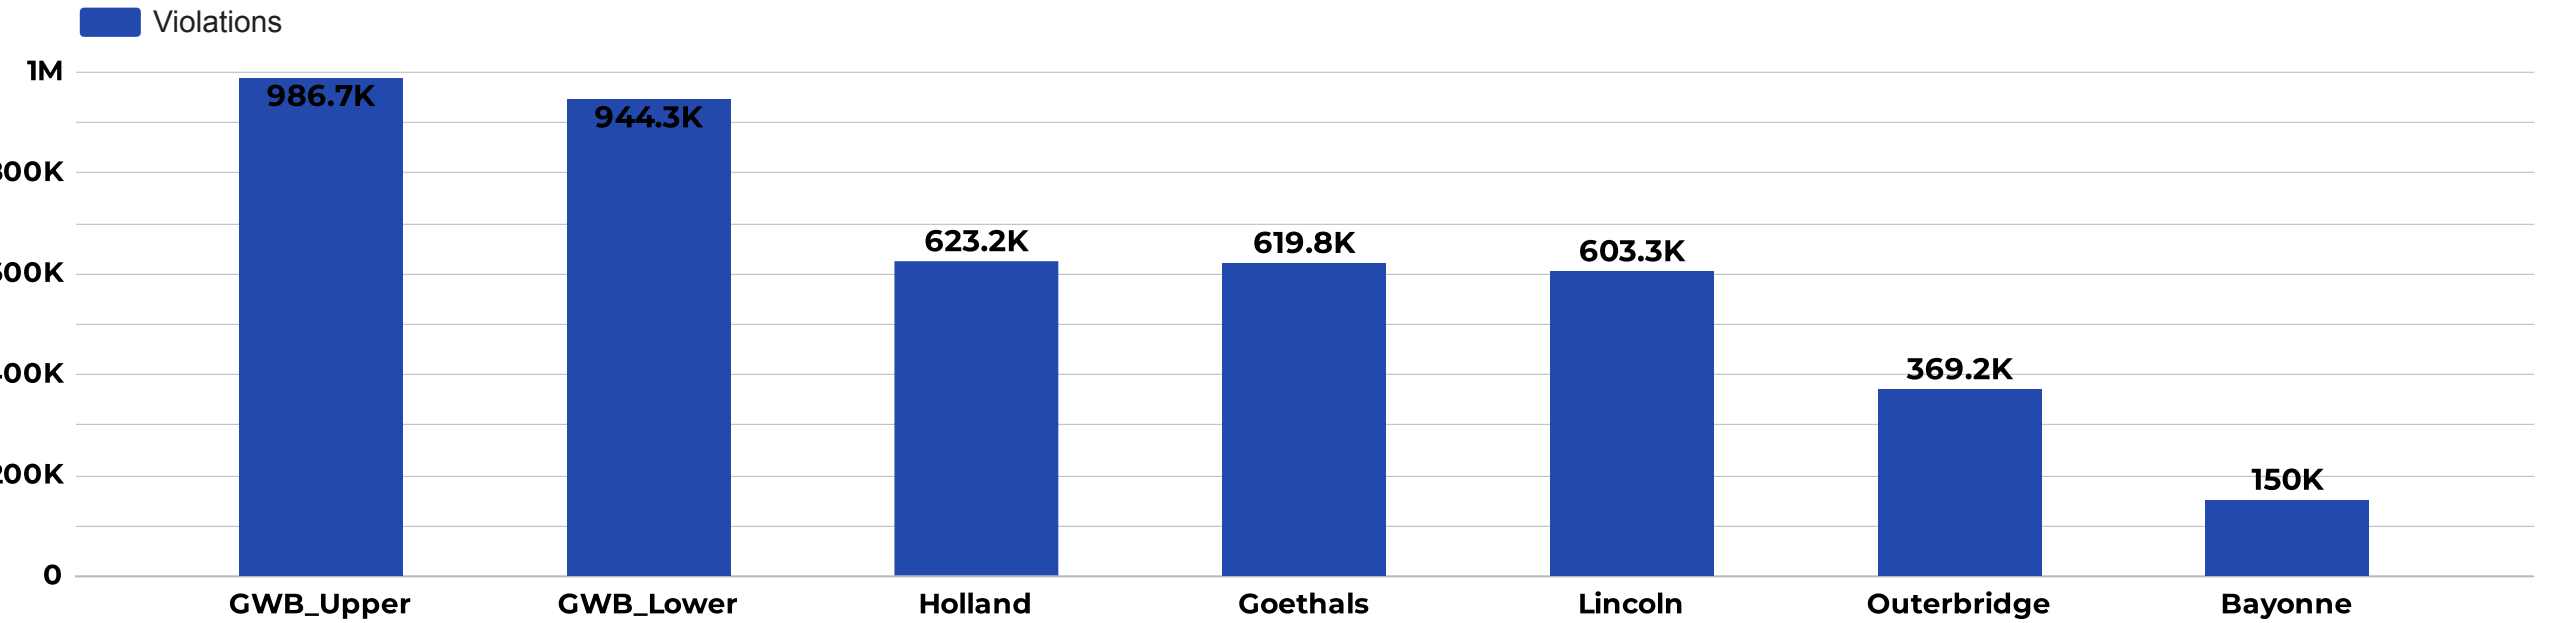

Jan 1, 2024 - Dec 31, 2024

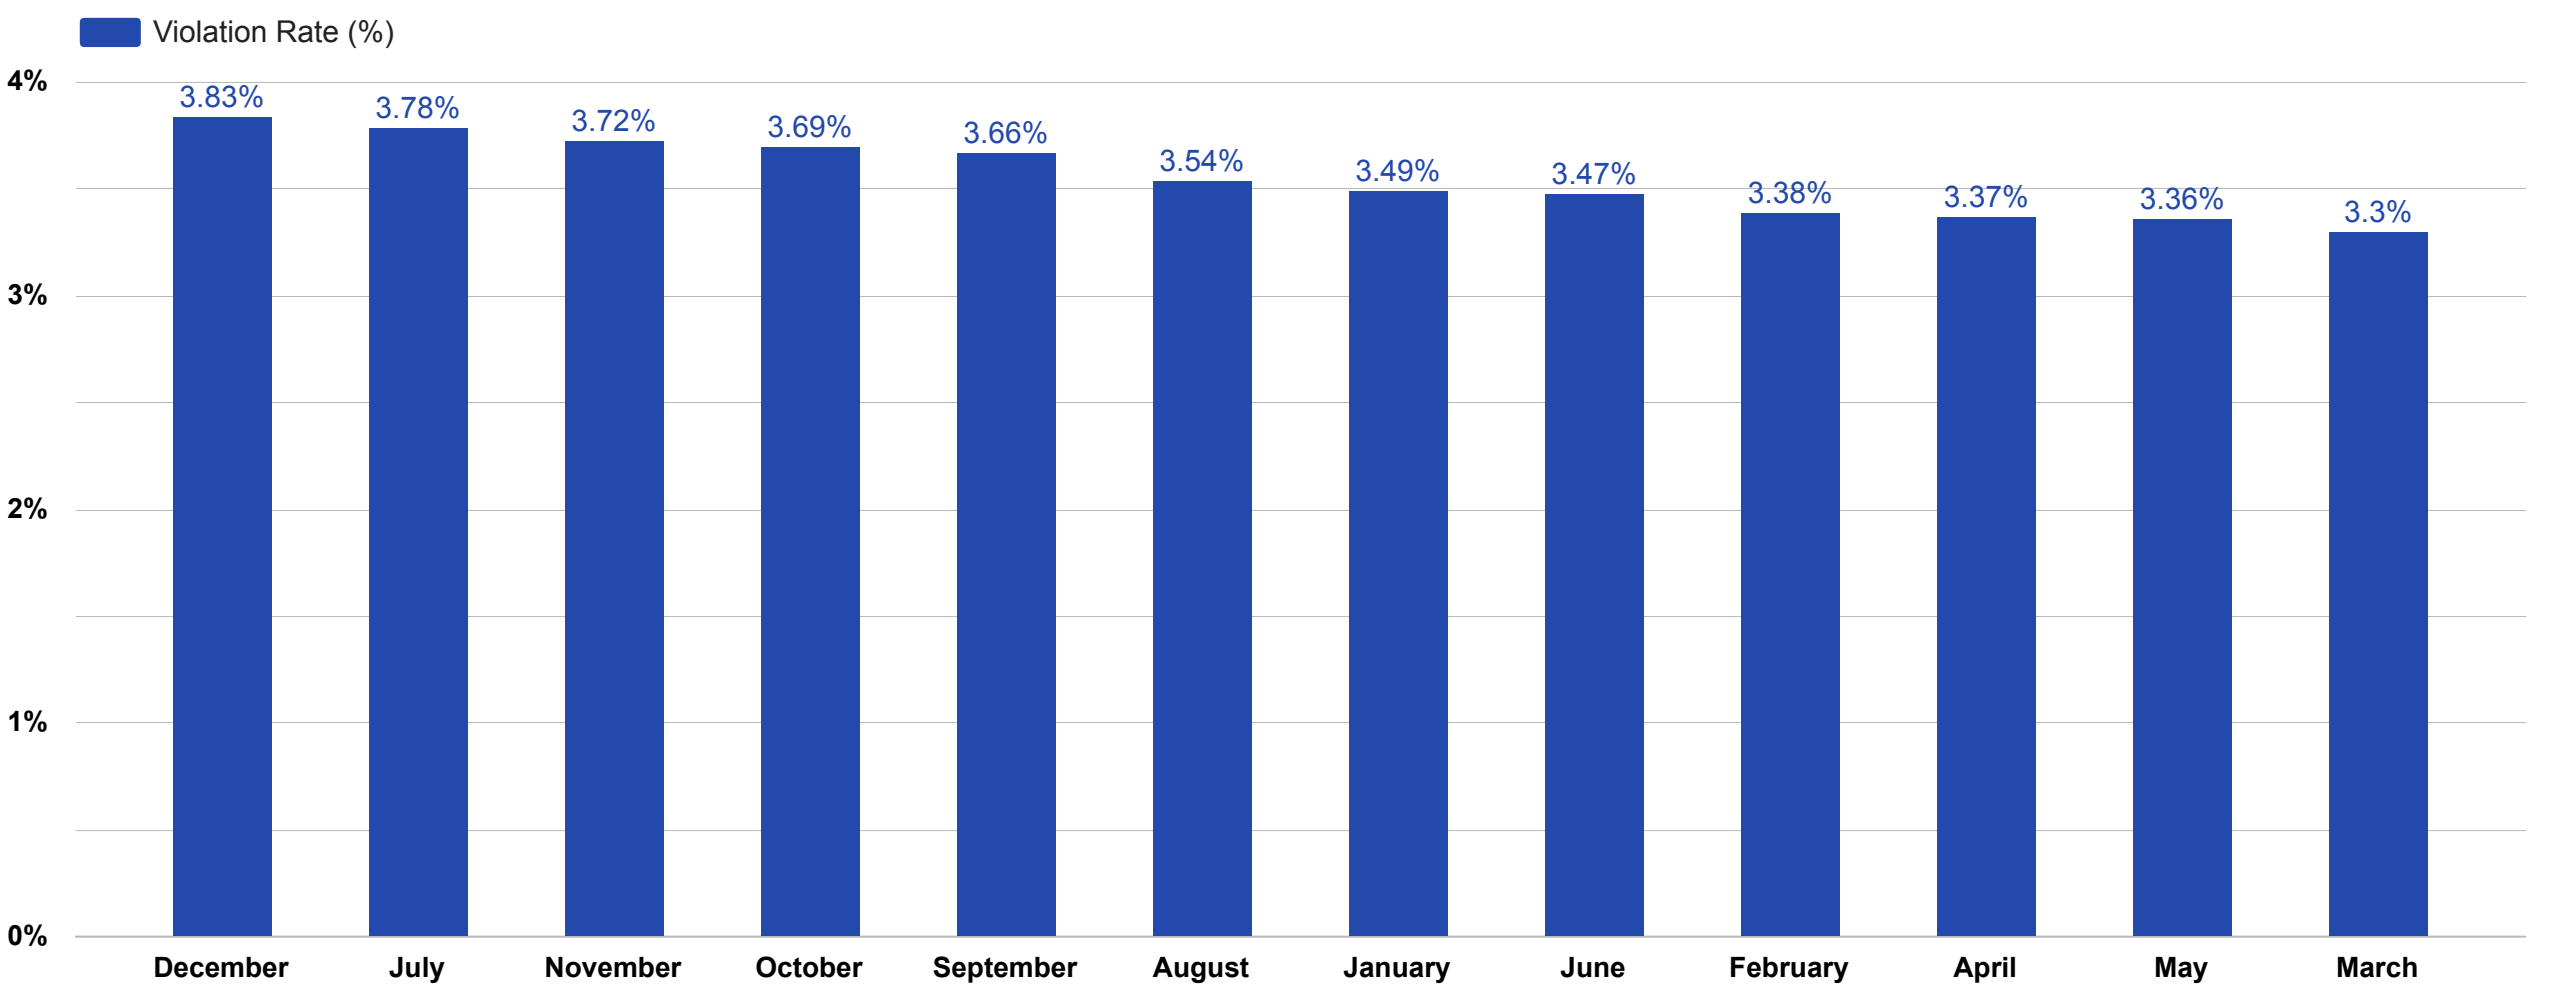

Toll Violations Trend by Yearly, Monthly, Weekly

Violations by Facility

Violation Rate by Month and Facility Names

Goal 3: Factors Affecting Bridge and Tunnel Usage

Total Traffic

125.7M

Total Violations

6.0M

Violation Rate (%)

4.74%

Year

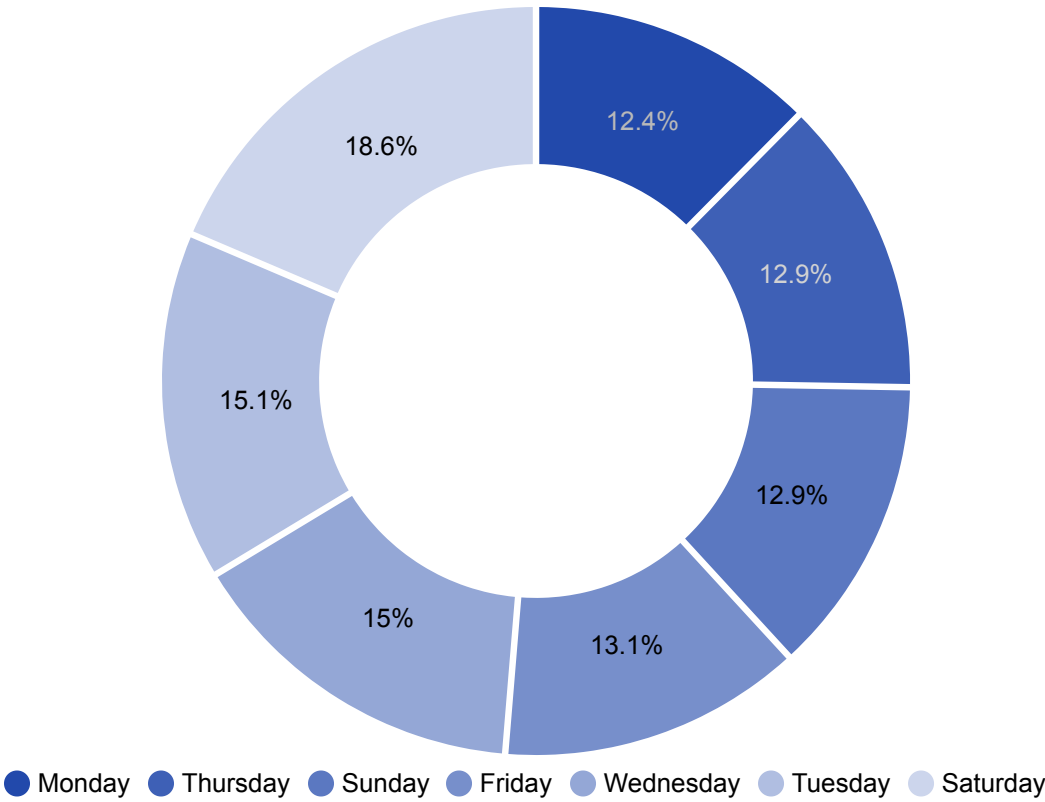

2025
